Warranty: 3 años

Product attributes:

Product description:

Aluminum BASEBOARD Profile for LED Strip - Indirect Lighting

Elegance and Functionality for Indirect Lighting in Walkways

The Aluminum BASEBOARD Profile is the perfect solution to create a baseboard with indirect lighting mounted flush with the floor, ideal for subtly illuminating indoor spaces. Made from high-quality aluminum and coated in white, this profileee allows for the integration of LED strips that cast light onto the floor, creating a warm and elegant ambiance in hallways, entryways, or walkways.

Why choose this product? **Indirect Lighting**

Ideal for creating relaxing and elegant atmospheres in walkways. **Minimalist Design**

White-coated and made from high-quality aluminum for seamless integration in any space. **Customization**

Compatible with LED strips up to 10mm wide, and the opal diffuser ensures even light distribution. Technical specifications Dimensions84x15x2000mmMaterialWhite-coated aluminumLED Strip CompatibilityMaximum width of

10mmDiffuserIncludes opal diffuser for uniform lightingInstallationSurface-mounted flush with the floorIncluded Accessories2 side end caps and decorative front cover Recommended applications ?Hallways and entryways: Provides subtle lighting in high-traffic areas.?Living rooms and bedrooms: Delivers a cozy and elegant indirect light.?Commercial spaces: Adds a decorative touch to display windows and exhibition areas. Advantages

- ? Indirect Lighting: Ideal for creating relaxing and elegant atmospheres in walkways.
- ? Minimalist Design: White-coated and made from high-quality aluminum for seamless integration in any space.
- ? Customization: Compatible with LED strips up to 10mm wide, and the opal diffuser ensures even light distribution.
