Warranty: 3 años

Product attributes:

Product description:

PISA Wall Light 2xGU10 Black The **PISA wall light** is a modern and functional lighting solution, ideal for both indoor and outdoor use thanks to its IP54 rating. Its rectangular design and construction in black lacquered aluminum and glass make it perfect for adapting to any decorative style.

The **PISA light** is equipped with 2 GU10 sockets for interchangeable LED bulbs (not included), allowing easy replacement of the bulbs without having to change the entire fixture. The bulbs are installed from the front, making for a quick and hassle-free installation.

This wall light emits light from both the top and bottom (Up&Down), washing the wall and providing indirect ambient lighting. This design is perfect for creating cozy atmospheres on terraces, balconies, patios, and gardens.

Features of the PISA Wall Light

- **Material:** Black lacquered aluminum and glass
- **Socket:** For 2 GU10 LED bulbs (not included)
- **Protection:** IP54, suitable for indoor and outdoor use
- **Lighting:** Up&Down, top and bottom light
