IP68 T-Shaped Waterproof Cable Connector

Product codes:

Reference: IL-2492

Product features:

IP: IP68
Certification: CE - RoHS
Warranty: 3 años

Product attributes:

Product description:

IP68 waterproof cable connector T Waterproof Cable Connector IP68 - 3x2.5 mm

Make the T-branch connection of cables hermetically and safely, indoors and outdoors. This nylon connector with copper contacts takes 3 wires (L-N-Earth) and protects against dust and water immersion.

IP68
Protection 3x2.5 mm
Cables T-shaped
Type

The **IP68 waterproof cable connector** lets you make the T-branch connection of cables while keeping the connections hermetic, for clean, safe installations both indoors and outdoors. Easy to assemble, it takes **3 wires (L-N-Earth)**, making it ideal for a wide range of electrical applications.

Made from sturdy **nylon** with **internal copper contacts** for optimal conductivity, it closes with a threaded screw. Its **IP68** design protects against dust and water immersion, and it complies with **CE, RoHS, UL, SAA and TUV** certifications, ensuring quality and safety in the most demanding conditions.

Why choose this product? **? IP68 sealing**

Protected against dust and water immersion. **? Nylon and copper**

Sturdy body and copper contacts for optimal conductivity. **? Multi-certified**
Compliant with CE, RoHS, UL, SAA and TUV. Technical specifications Product type Waterproof cable connector Joint type T-shaped Protection rating IP68 (dust and immersion) Number of wires 3 (L-N-Earth) Cross-section 3x2.5 mm Material Nylon (body), copper (contacts) Connection type Threaded screw Certifications CE, RoHS, UL, SAA, TUV Advantages

- **IP68 sealing:** resists dust and immersion.
- **3 wires (L-N-Earth):** compatible with many applications.
- **Nylon and copper:** sturdy and conductive.
- **Threaded screw:** hermetic, safe closure.
- **Multi-certified:** CE, RoHS, UL, SAA and TUV.

Recommended applications ? **Outdoor spotlights and street lights** — waterproof connections. ? **Gardens and terraces** — exposed installations. ? **Pool and fountain lighting** — wet environments. ? **Indoor and outdoor installations** — safe connections. Installation guide 1 **Switch off the power**
Cut the supply before any connection. 2 **Prepare the cables**
Strip the 3 wires (L-N-Earth) to the recommended length. 3 **Connect the wires**
Insert the wires into the connector, observing L-N-Earth. 4 **Close hermetically**

Tighten the threaded screw to ensure IP68 sealing, then restore power. Frequently asked questions **What is its protection rating?**

IP68: resistant to dust and water immersion. **How many wires does it take?**

3 wires: live, neutral and earth (L-N-Earth). **Is it suitable for outdoors?**
Yes, its IP68 design makes it ideal for outdoors and wet environments. ?
