

8W dimmable A60 E27 LED Bulb 800Lm

Product codes:

Reference: BR-E27-8W

Product features:

Power (W): 8

Power source (V): 220-240V Color temperature CCT: 2700K Color temperature CCT: 4000K Color temperature CCT: 6500K

Dimmable: Sí, TRIAC Lampholder: E27 Brightness (Lm): 800 Luminous angle: 200 Measures (mm): Ø60x110mm

Material: Aluminum + PC Operating temperature: -20°C ~ +40°C

Energy efficiency 2021: A+ Certification: CE - RoHS

Warranty: 2 años

Product attributes:

Color temperature CCT (°K): Natural white 4000K, Cool white 6500K, Warm white 2700K

Product description:

8W dimmable A60 E27 LED Bulb 800Lm Upgrade your lighting solution with our Dimmable A60 E27 LED Bulb. This bulb combines energy efficiency and superior performance to provide exceptional lighting to your space. With a power consumption of only 8W, it delivers 800 lumens of brightness, making it an ideal alternative to traditional incandescent bulbs. The bulb is dimmable using TRIAC technology, allowing you to adjust the light intensity according to your preferences.

Made with durable aluminum and PC materials, this bulb ensures durability and reliability. Its SMD2835 LED technology offers efficient and consistent lighting with minimal energy consumption. With a wide beam angle of 200°, it provides uniform illumination throughout the room, enhancing visibility and comfort.

Available in warm white (2700K), neutral white (4000K), and cool white (6500K), you can choose the perfect color temperature to suit your environment and decor. Whether you need inviting and cozy lighting for residential spaces or bright and clear lighting for commercial areas, our Standard A60 E27 LED Bulb is the perfect choice.

Technical Specifications:

Luminous Flux: 800 lumensLED Type: SMD2835

Beam Angle: 200°

Dimensions: Ø60x110mmVoltage: 220-240V

Dimmable: Yes, TRIACMaterial: Aluminum, PC

Available Color Temperatures: Warm White (2700K), Neutral White (4000K), Cool White (6500K)

Installation and Mounting Recommendations:

To install the Standard A60 E27 LED Bulb, simply screw it into any standard E27 socket. Ensure the bulb is compatible with your dimmer if you desire dimming functionality. For optimal performance and longer lifespan, avoid exposing the bulb to excessive heat or moisture.

Recommended Uses and Applications:

- Residential lighting, including living rooms, bedrooms, and kitchens.
- Commercial lighting, such as offices, retail stores, and restaurants.
- Hospitality environments, including hotels, lobbies, and guest rooms.
- Task lighting for workspaces, offices, and reading areas.
- Accent lighting for artwork, displays, and architectural features.
