Product description:

CORTA 40 Outdoor Bollard E27 with socket The **outdoor bollard CORTA 40** is an elegant and functional lighting solution, ideal for illuminating paths and sides of patios and gardens. Made of high-quality aluminum and PC, and lacquered in gray, this bollard guarantees durability and aesthetics in any outdoor environment.

The **CORTA 40 bollard** has a height of 40cm, and with an IP44 rating, it is suitable for outdoor use. It features a socket for an E27 LED bulb (not included), allowing for easy replacement and customization of the lighting according to your needs.

Additionally, the **CORTA 40 bollard** incorporates a 230V SCHUKO socket with IP54 protection in its column, allowing you to connect other electronic devices in your garden without the need for extension cords or additional sockets. The maximum load of the socket is 16A.

Easy to install, the CORTA bollard includes all the necessary accessories for its assembly.
