

Surface Mounting Kit for 30x60cm LED Panels

Product codes:

Reference: SUP30X60

Product features:

Colour: White

IP: IP20

Measures (mm): 600x300x68

Material: Aluminum

Certification: CE - RoHS

Warranty: 5 años

Product attributes:

Product description:

Surface Mounting Kit for 30x60cm LED Panels This surface mounting kit is designed to house a 300x600mm LED panel and convert it into a surface-mounted luminaire. It is ideal for installing LED panels in ceilings where recessing is not possible or where there are no removable tiles.

The kit, made of white aluminum, offers a practical and aesthetic solution for your lighting needs. It is supplied disassembled for easy transport and storage and can be assembled easily without special tools.

By converting LED panels into surface-mounted luminaires, this kit expands installation options, allowing you to create well-lit environments in a variety of spaces.

Technical Specifications:

- Material: White Aluminum
- Dimensions: 300x600x68mm
- Mounting: Surface

Installation and Assembly Recommendations:

The kit is quick and easy to assemble. Follow these steps to install the surface-mounted LED panel:

1. Assemble three sides of the kit using the provided interior clips.
2. Place the kit in the desired location on the ceiling.
3. Slide the LED panel through the opening in the kit.
4. Attach the fourth side to close the aluminum frame.

Recommended Uses and Applications:

- Offices, conference rooms, and work areas.
- Retail stores, showrooms, and commercial spaces.
- Residential spaces such as kitchens, living rooms, and bedrooms.
- Educational institutions, healthcare facilities, and other institutional settings.
