

LED COB 230V Strip Starter Cable 8mm

Product codes:

Reference: IL-90931-8-UND

Product features:

Power source (V): 220-240V
Colour: White
IP: IP65
Measures (mm): 15.3x4.3mm
Material: Thermoplastic
Operating temperature: -20°C ~ +40°C
Certification: CE - RoHS
Warranty: 3 años

Product attributes:

Product description:

Solderless starter cable connector for 230V COB LED strips with 8mm PCB width. The connector allows connections to be made on LED strips by simply inserting the 230V COB LED strip into the slot and tightening the connector's clamping clips.

The connector achieves IP65 properties by filling it with transparent silicone.

Connector Width: 15.3mm

Connector Thickness: 4.3mm
