

PARIS 10W IP54 Outdoor Wall Lamp with motion detector

Product codes:

Reference: LD-PAR10W40

Product features:

Power (W): 10
 Power source (V): 220-240V
 Color temperature CCT: 4000K
 LED: SMD2835
 Brightness (Lm): 900
 CRI: +80
 Colour: White
 Colour: Grey
 IP: IP54
 IK: IK07
 Luminous angle: 120°
 Frequency (Hz): 50-60Hz
 Measures (mm): 66x255x187mm
 Material: PC
 Operating temperature: +5°C ~ +30°C
 Energy efficiency 2021: A+
 Energy efficiency 2023: D
 Lifespan: 40.000h
 Certification: CE - RoHS
 Warranty: 3 años

Product attributes:

Colour: White, Grey

Product description:

LED Wall Light PARIS 10W with motion sensor The **PARIS LED wall light** is a modern and efficient lighting solution, ideal for outdoor areas thanks to its IP54 rating. With a power of 10W and an integrated high-brightness SMD2835 LED, the PARIS light offers a brightness of 900 lumens in neutral white light of 4000K, perfect for illuminating patios, terraces, gardens, and entrances to homes.

Made of high-resistance PC and ABS, the **PARIS light** is designed to withstand outdoor conditions, ensuring durability and resistance. It is available in two colors: gray and white, adapting to different styles and needs.

One of the main features of the **PARIS light** is its integrated and adjustable motion sensor. This sensor allows the light to turn on only when necessary, with a range of 9 meters and a detection angle of 140 degrees. The lighting duration can be continuously adjusted from 10 seconds to 5 minutes, and the sensitivity of the dusk sensor can be adjusted between 3-2000 lux.

Features of the PARIS LED Wall Light

- **Power:** 10W
- **Integrated LED:** High-brightness SMD2835

- **Luminous Flux:** 900 lumens
- **Color Temperature:** Neutral white 4000K
- **Material:** High-resistance PC and ABS
- **IP Rating:** IP54, suitable for outdoor use
- **Motion Sensor:** Integrated, adjustable with a range of 9 meters and a detection angle of 140 degrees
- **Lighting Duration:** Adjustable from 10 seconds to 5 minutes
- **Dusk Sensor Sensitivity:** Adjustable between 3-2000 lux
- **Dimensions:** 66x255x187mm
- **Available Colors:** Gray and white
- **Note:** Not compatible with dimmers

Uses and Applications of the PARIS LED Wall Light

- **Patios:** Ideal for illuminating outdoor areas, creating a warm and secure environment.
- **Terraces:** Provides effective lighting adaptable to different needs.
- **Gardens:** Offers suitable light to highlight decorative elements and improve visibility.
- **Home Entrances:** Ensures a well-lit and safe entrance for visitors.
