

150W 48Vdc black Power Supply for Magnetic Track

Product codes:

Reference: FAM150W48V

Product features:

Power (W): 150
Power source (V): 48V
Colour: Black
IP: IP20
Measures (mm): 370x18x18mm
Material: Aluminum
Operating temperature: -20°C ~ +55°C
Energy efficiency 2021: A+
Energy efficiency 2023: G
Lifespan: 30.000h
Certification: CE - RoHS
Warranty: 3 años

Product attributes:

Product description:

150W 48Vdc Power Supply for Magnetic Track The **150W 48Vdc power supply** is an efficient and discreet solution for magnetic track systems. Finished in black, this power supply integrates perfectly into the track, remaining concealed within, ensuring a clean and minimalist design for your lighting installation.

With a **power output of 150W**, this 48V driver is ideal for powering your LED luminaires on magnetic tracks. It is designed for simple and hassle-free installation. The power supply operates silently, ensuring a quiet environment free from acoustic interference, making it ideal for both residential and commercial settings.

The **150W 48Vdc power supply** is easily installed within the magnetic track, remaining completely hidden. Thanks to its compact and lightweight design, with dimensions of 370x18x18mm, it can be easily mounted and dismantled, facilitating any necessary maintenance or adjustment.

Power Supply Installation

Installing the power supply into the magnetic track is straightforward:

1. **Power connection:** The power supply includes a 30cm input cable that connects directly to the electrical network. To make this connection, the cable should be positioned in the appropriate place within the track and

connected to the corresponding power source.

2. **Mounting in the magnetic track:** Once the power connection is made, the power supply is inserted into the magnetic track. Its design ensures it fits perfectly and remains concealed within the track, guaranteeing a tidy and aesthetically pleasing installation.

This system facilitates the integration of the power supply into your lighting setup, maintaining both the aesthetics and functionality of your space.

Technical Specifications

- **Power:** 150W
- **Output Voltage:** 48Vdc
- **Color:** Black
- **Input Cable:** 30cm for connection to electrical network
- **Dimensions:** 370x18x18mm
- **Mounting:** Inside the magnetic track
- **Warranty:** 3 years
