Product description:

White Decorative Supplementary Ring for Downlight Ø188-210mm

Decorative circular supplementary ring in white, made of aluminum, designed to **cover gaps and irregularities in the cutout**, suitable for downlights with an internal diameter of 180mm and an external diameter of 188-205mm.

Internal diameter: Ø180mm

External diameter: Ø210mm

This **decorative ring** allows you to cover gaps that are too large or irregular for the installation of the plate or **LED downlight**; thus, **ceiling cutouts up to ø205mm** are covered by the ring.

It is perfect for new constructions as well as renovations and replacements of downlights with non-standard dimensions. It has an **IP20** protection rating, making it suitable for indoor use.

Uses of the White Decorative Supplementary Ring for Downlight

- Domestic

- Professional
