

90-degree rigid junction connector for 8mm 230V COB LED strip

Product codes:

Reference: IL-LM2616

Product features:

Power source (V): 220-240V

Colour: White

IP: IP65

Material: Thermoplastic

Operating temperature: -20°C ~ +40°C

Certification: CE - RoHS

Warranty: 3 años

Product attributes:

Product description:

90° rigid junction connector for 8mm wide 230V COB LED strip, for solderless installation.

The quick connector allows for LED strip connections without the need for soldering, simply by inserting the LED strip and pressing the connector's locking clips until you hear a click.

The quick connector acquires IP65 characteristics when filled with transparent silicone.
