

Template 220x220mm with bolts for anchoring modular columns REKA/URBAN to the ground

Product codes:

Reference: 91861

Product features:

Measures (mm): 220x220x400mm

Material: Steel

Certification: CE - RoHS

Warranty: 3 años

Product attributes:

Product description:

High-quality anchoring template for the secure installation of REKA/URBAN modular columns in the ground or concrete plinth. Includes 4 anchoring bolts with a depth of 40cm for robust fixation. Made of durable steel.

The anchoring template for REKA/URBAN columns is a robust and secure solution for the installation of road lighting columns. Designed to be used both in the ground and on a concrete plinth, this template ensures stable and long-lasting fixation.

Features:

- Dimensions: 220x220mm
- Includes 4 anchoring bolts with a depth of 40cm
- Metal base for leveling and fixation using nuts on the threaded rods in the concrete foundation
- Bolt diameter: 16mm
- Made of durable steel

Recommended Use:

This anchoring template is ideal for securing 4-meter-high columns to the ground in road lighting projects, providing a safe and stable installation.

Note: Columns, arms, or masts are not included and are sold separately.
