- **Installation:** Wall mounting

- Made in Europe

Installation Instructions

1. Preparation: Ensure the installation area is clean and dry.
2. Mounting the base: Attach the scone base to the wall using the provided screws.
3. Electrical connection: Connect the scone's wires to the electrical network (we recommend that this part be carried out by a qualified electrician).
4. Assembling the scone: Assemble the scone body to the already mounted base.
5. Bulb installation: Insert a GU10 LED bulb into the scone.
6. Checking: Ensure everything is secure and turn on the scone to check its functionality.

Recommended Uses and Applications

The DIREZIONE scone is ideal for a variety of indoor spaces such as living rooms and bedrooms, providing adjustable lighting that can be directed towards reading areas or to highlight decorative elements. It is also perfect for offices and studios, offering direct or indirect light as needed for work, as well as for commercial premises and galleries, ideal for highlighting products or artworks with directed lighting.
