Installation Instructions

1. Preparation: Ensure the installation area is clean and dry.
2. Mounting the base: Attach the base of the sconce to the wall using the provided screws.
3. Electrical connection: Connect the wires of the sconce to the electrical network (it is recommended that this part be carried out by a qualified electrician).
4. Assembling the sconce: Assemble the body of the sconce to the already mounted base.
5. Bulb installation: Insert an LED G9 S11 bulb into the sconce.
6. Checking: Ensure everything is secure and turn on the sconce to check its functionality.

Recommended Uses and Applications

The AXIL sconce is ideal for use in hotels, residences, and areas where flexibility and lighting adjustment capabilities are essential. Its design allows you to direct light towards reading areas, hallways, or as ambient lighting, adding functionality and style to any space.
