Total Control of Your Smart Lighting

The RGB+CCT 4-Zone Remote Control FUT092 allows you to efficiently and conveniently manage the lighting in your home or commercial space. Thanks to its 2.4 GHz RF wireless transmission technology, it offers stable, interference-free control up to a distance of 30 meters. Compatible with the MiBoxer/Mi-Light 2.4G series, this device lets you adjust colors, brightness, and color temperature to your preferences.

Main Features

- Multi-Zone Control: Manage up to 4 lighting zones independently, with no limit on the number of lamps or controllers per zone.
- Wide Color Range: Access 16 million colors to customize the ambiance of any space.
- Custom Settings: Adjust brightness, color temperature, and saturation to create the perfect atmosphere.
- Functional Design: Equipped with a transparent glass front cover and a glow-in-the-dark frame for easy location in the dark.
