Product description:

MiBoxer C1 Remote Control - CCT Color Temperature 2.4GHz

Intuitive color temperature control for CCT LED strips

2700K – 6500K

2700K – 6500K
Colour temp.2 piles AAA
Voltage

The MiBoxer C1 is an ergonomic remote designed to easily manage the color temperature and brightness of your CCT LED strips. Its minimalist design and touch wheel allow precise adjustment of white tones, from warm to cool.

Thanks to 2.4GHz wireless technology, you can control your LED strips up to 30 meters away, even through walls.

Perfect for homes, commercial spaces, and professional lighting projects.
