

Rust red Garden Spotlight with spike for GU10 - Bulb included

Product codes:

Reference: OS-DIEGOGU10-RR

Product features:

Lampholder: GU10

Colour: Óxido

IP: IP65

IK: IK06

Measures (mm): 98x320mm

Material: Aluminum + glass

Certification: CE - RoHS

Warranty: 3 años

Product attributes:

Product description:

Rust red DIEGO Garden Spotlight for GU10 LED Bulb with Spike

The **DIEGO garden spotlight** GU10 in rust red color is an elegant and functional solution for illuminating outdoor spaces. With an **IP65 rating**, it is water and dust resistant, making it perfect for use in any outdoor environment. Its compact design includes an aluminum spike that allows it to be stuck into the ground, but it can also be installed on a solid surface or wall by easily removing the spike by unscrewing the base.

The fully adjustable base of the **DIEGO spotlight** allows you to focus the light on desired areas, creating spectacular lighting effects. With dimensions of Ø98x320mm (including the spike), it is made of die-cast aluminum and glass, ensuring durability and resistance.

Inside, the **DIEGO spotlight** is equipped with a ceramic socket for a **GU10 LED bulb** (not included) and a terminal strip for electrical connection. It does not include a connection cable to maintain the unit's watertightness. To connect the electrical wiring and install the bulb, unscrew the front of the spotlight and the GU10 base to access the terminal strip. The electrical cable must be passed through the gland on the back and connected to the terminal strip.

It includes a free GU10 5W LED bulb in 2700/3000K. Technical Data:

- Dimensions: Ø98x320mm (including the stake)
- Material: Die-cast aluminum and glass
- Color: Rust red
- IP Rating: IP65
- Base: Adjustable
- Socket: Ceramic for GU10 LED bulb
- Terminal strip for electrical connection

Installation Instructions:

1. Unscrew the front of the spotlight and the GU10 base.
2. Access the electrical terminal strip inside.
3. Pass the electrical cable through the gland on the back and connect it to the terminal strip.
4. Reassemble the front of the spotlight and the GU10 base.

Common Uses and Applications:

- Patio and garden lighting.
- Highlighting decorative elements in outdoor areas.
- Creating lighting effects in garden areas.
