System

The **double side-joint piece for MAGNUM modules** lets you combine MAGNUM LED modules to create high-power LED floodlights, from 100W. This support is essential for building custom lighting systems tailored to your needs.

Using these supports, you can join the MAGNUM LED modules side by side and create floodlight configurations of various powers and sizes. The double assembly is simple and allows a flexible combination of modules to achieve exactly the lighting you want, ideal for large surfaces and professional projects.

Why choose this product? **? Custom floodlights**
Combine MAGNUM modules for various powers. **? From 100W**
Ideal to build floodlights of 100W and above. **? Simple assembly**
Easy assembly and flexible combination. Technical specifications Product typeDouble Side-Joint Piece for MAGNUM LED FloodlightCompatibilityMAGNUM LED modulesJoint typeDouble sideApplicationBuilding custom LED floodlightsPowerFrom 100W (depending on combination)AssemblySimple and flexible Advantages

- **Customisation:** floodlights of various powers and sizes.
- **Flexibility:** combines MAGNUM modules simply.
- **High power:** ideal for 100W and above.
- **Simple assembly:** easy to assemble.
- **MAGNUM compatibility:** designed for the range's modules.

Recommended applications ?**Large outdoor surfaces** — high-power floodlights.?**Architectural lighting** — custom configurations.?**Sports facilities** — powerful lighting.?**Industrial projects** — combined modules. Installation guide 1**Prepare the modules**
Lay out the MAGNUM LED modules to be assembled.2**Position the piece**
Place the double side-joint piece between the modules.3**Fix the assembly**
Screw the piece to secure the modules together.4**Check**
Check the rigidity and alignment of the resulting floodlight. Frequently asked questions **What is this piece for?**
To join MAGNUM LED modules to create custom floodlights. **What power can be reached?**
From 100W, depending on the number of combined modules. **What is it compatible with?**
With MAGNUM LED modules. ?
