

3W Tilttable LED White Recessed Spot Downlight 330Lm

Product codes:

Reference: DCB3W

Product features:

Power (W): 3
Power source (V): 100-240V
Color temperature CCT: 6500K
Color temperature CCT: 3000K
Color temperature CCT: 4000K
LED: COB
Luminous efficacy (Lm/W): 110
Brightness (Lm): 330
CRI: +80
Colour: White
IP: IP20
Luminous angle: 120°
Frequency (Hz): 50-60Hz
Measures (mm): Ø85x40mm
Material: Aluminum + PC
Operating temperature: -20°C ~ +40°C
Energy efficiency 2021: A+
Energy efficiency 2023: F
Certification: CE - RoHS
Warranty: 3 años

Product attributes:

Color temperature CCT (°K): Warm white 3000K, Natural white 4000K, Cool white 6000K

Product description:

3W Adjustable LED Downlight 330Lm The 3W adjustable LED downlight is the perfect solution for indoor lighting, offering 330 lumens of brightness and IP20 classification. Made of aluminum and PC, this white downlight is ideal for easy and quick replacement in standard recessed downlight holes.

The **3W adjustable LED downlight** is designed to provide efficient and versatile lighting in any indoor space. Equipped with a high-brightness COB LED chip, this downlight offers 330 lumens of brightness, ensuring clear and powerful illumination. With an IP20 classification, it is perfect for use in dry areas.

The downlight has an outer diameter of Ø85mm, with a cut-out diameter of Ø75mm, making it suitable for easy replacement in standard recessed downlight holes. Made of high-quality aluminum and PC, this downlight guarantees long-term durability and performance.

The downlight is tilttable and adjustable up to 45°, allowing you to direct the light exactly where it is needed. With a 120° light beam angle, it provides wide and uniform illumination throughout the room. Additionally, it includes a high-performance external driver that ensures efficient and stable operation.

Technical Specifications

- **Power:** 3W
- **Brightness:** 330 lumens
- **IP Classification:** IP20
- **Color:** White
- **LED Chip:** High-brightness COB
- **Outer Diameter:** Ø85mm
- **Cut-out Diameter:** Ø75mm
- **Material:** Aluminum and PC
- **Driver:** High-performance external
- **Adjustability:** Tilttable and adjustable up to 45°
- **Light Beam Angle:** 120°

What is a LED Downlight?

A **LED downlight** is a recessed lighting fixture used for indoor lighting. It is characterized by its discreet design and its ability to integrate into the ceiling, providing efficient and elegant lighting. LED downlights use light-emitting diode (LED) technology to offer bright and energy-efficient illumination.

These downlights are ideal for a variety of applications, including living rooms, kitchens, hallways, offices, and any other space that requires uniform and high-quality lighting. LED downlights are known for their long lifespan and their ability to reduce energy costs compared to traditional lamps.

Uses and Applications

- Living room lighting
- Kitchen lighting
- Hallway lighting
- Office lighting
- Bedroom lighting
- Bathroom lighting (in dry areas)
