Tripod

The **10W portable solar LED floodlight** is an ideal solution for camping, hiking and outdoor work. Fitted with a tripod extendable up to 2 metres and an adjustable head, it offers versatile, efficient lighting in 4000K neutral white, without relying on the mains.

It includes a **6.5W central core and four 1W satellite mini lights**, which can be separated to work independently. The mini lights have a hook and a magnet, for use in many situations. Together they emit 1265 lumens. Made of dark-green ABS, rated IP63 and IK08, it comes with a compact carry bag to ease transport.

Why choose this product? **? Solar and portable**

Self-contained, ideal for camping, hiking and worksites. **? 4 detachable mini lights**

Hook and magnet, independent operation. **? 2 m tripod, adjustable head**

Versatile lighting, carry bag included.
