

Prewired Ceramic GU10 Socket

Product codes:

Reference: IL-2594

Product features:

Lampholder: GU10
IP: IP20
Measures (mm): Ø28x100mm
Material: Ceramics
Certification: CE - RoHS
Warranty: 3 años

Product attributes:

Product description:

Prewired Ceramic GU10 Socket Easy and direct connection for GU10 bulbs

The **Ceramic GU10 Socket** is the ideal solution for installing GU10 base bulbs, allowing a direct connection to the 230V network. It comes prewired with 10cm of cable, making it easy to install in any type of fixture or electrical setup.

Made from durable **ceramic** material, it offers great longevity and the ability to withstand the heat generated by LED or halogen GU10 bulbs, making it a reliable choice for both domestic and professional installations.

Technical Data

- **Socket Type:** GU10
- **Material:** Ceramic
- **Connection:** Direct to 230V
- **Cabling:** Prewired with 10cm of cable
- **Dimensions:** Ø28x100mm

Product Advantages

- Heat-resistant ceramic material.
- Prewired for easy installation.
- Compatible with LED and halogen GU10 bulbs.
- Direct connection to the 230V power network.
- Perfect for domestic and professional installations.

Applications of the Prewired GU10 Socket

The **ceramic GU10 socket** is suitable for a variety of applications in homes, offices, and commercial spaces, providing a safe and efficient connection for GU10 bulbs in recessed lighting fixtures.
