Mounting

The **kit of 4 fixing clips** lets you install **recessed Slim LED panels** in plasterboard false ceilings. These clips provide a firm, secure fixing, allowing the panel to be fully integrated into the ceiling, projecting only by the panel's minimal thickness for a neat, professional finish.

Mounting is simple: just screw each clip into the corners provided on the back of the LED panel, then insert the panel into the pre-cut opening. These clips are compatible with Slim LED panels in **30x30, 30x60, 120x30 and 120x60 cm** formats, making them a versatile accessory for your installations.

Why choose this product? **? Perfect integration**

The panel sits flush with the false ceiling, with no visible projection. **? Secure fixing**

Firm hold of the panel in the cut opening. **? Slim compatible**
For 30x30, 30x60, 120x30 and 120x60 cm panels. Technical specifications Product typeFixing clips for Slim LED panelsQuantityPack of 4 unitsCompatibilitySlim LED panels 30x30 / 30x60 / 120x30 / 120x60 cmMountingRecessed in false ceiling (plasterboard)AccessoriesScrews included Advantages
