Warranty: 3 años

Product attributes:

Product description:

Fixing Clips for Slim LED Panel to False Ceiling - Pack of 4 Units Easy and Secure Mounting for Slim LED Panels in False Ceilings

The **kit of 4 fixing clips** allows you to install **recessed Slim LED panels** in plasterboard false ceilings. These clips ensure firm and secure attachment, allowing the **LED panel** to be fully integrated into the ceiling, protruding only the minimal thickness of the panel.

Installation in False Ceilings

The **mounting kit** is simple to install, by screwing each clip into the corners provided on the back of the LED panel. Then, the panel is placed into the pre-cut opening in the false ceiling, ensuring a perfect fit.

Compatibility

The clips are compatible with Slim LED panels of the following dimensions:

- **Panel 30x30cm** - Panel dimensions: 295x295mm / Cut-out dimensions: 285x285mm
- **Panel 30x60cm** - Panel dimensions: 295x595mm / Cut-out dimensions: 285x585mm

- **Panel 120x30cm** - Panel dimensions: 1195x295mm / Cut-out dimensions: 1185x285mm
- **Panel 120x60cm** - Panel dimensions: 1195x595mm / Cut-out dimensions: 1185x585mm

For the **120x60cm** panel, it is recommended to use **6 clips** for more robust support, ensuring a fully stable installation.

Uses and Applications

This **fixing clip kit** is ideal for embedding Slim LED panels in plasterboard ceilings, in spaces such as:

- Offices
- Shops and Retail Spaces
- Homes
- Conference rooms and classrooms

This fixing system ensures a clean and aesthetic finish, guaranteeing that the LED panel is perfectly aligned and flush with the false ceiling.
