

45W 12Vac PAR56 RGB IP68 LED Pool Light Bulb 4500Lm

Product codes:

Reference: 8211

Product features:

Power (W): 45
Power source (V): 12V-AC
Color temperature CCT: 4000K
Color temperature CCT: 6000K
LED: SMD2835
Lampholder: G53
Luminous efficacy (Lm/W): 100
Brightness (Lm): 4500
CRI: +75
IP: IP68
Luminous angle: 120°
Measures (mm): Ø178x115mm
Material: Glass
Operating temperature: -20°C ~ +30°C
Energy efficiency 2021: A+
Certification: CE - RoHS
Warranty: 3 años

Product attributes:

Color temperature CCT (°K): Cool white 6000K, Natural white 4000K

Product description:

Monochromatic LED PAR56 Pool Light Monochromatic LED PAR56 Pool Light, low voltage 12Vac, G53 connection, 45W power, IP68 rating

The Monochromatic LED PAR56 Pool Light with low voltage 12Vac offers a power of 45W and is ideal for pools and underwater environments thanks to its IP68 rating. With dimensions of Ø178x115mm, it is compatible with most recessed niches for pool LED lights. Made of glass, it includes a high-brightness SMD5050 LED chip to produce an intense and vibrant light. Available in neutral white 4000K or cool white 6000K. The lamp requires a 12Vac power supply (not included). It provides a brightness of 4500 lumens.

Technical Specifications

- **Dimensions:** Ø178x115mm
- **Power:** 45W
- **Voltage:** 12Vac
- **Connection:** G53
- **IP Rating:** IP68
- **Material:** Glass

- **LED Chip:** SMD5050
- **Color Temperature:** Neutral White 4000K / Cool White 6000K
- **Compatibility:** Recessed niches for pool LED lights
- **Brightness:** 4500 lumens

Advantages of the Monochromatic LED PAR56 Pool Light

The Monochromatic LED PAR56 Pool Light offers numerous advantages, such as high energy efficiency and the ability to create vibrant underwater environments. Its IP68 rating ensures complete protection against water, making it perfect for pools. The SMD5050 LED chip provides bright and uniform light, enhancing the visual experience.

Installation Instructions

1. **Preparation:** Ensure the lamp is disconnected from the power supply before installation.
2. **Mounting:** Install the lamp in the compatible recessed niche, ensuring it is securely fixed.
3. **Connection:** Connect the lamp to the 12Vac power supply (not included).
4. **Testing:** Turn on the lamp and ensure it functions correctly.

Recommended Applications

The **Monochromatic LED PAR56 Pool Light** is ideal for various underwater applications, such as:

- **Pools:** Provides bright and uniform lighting, enhancing aesthetics and safety.
- **Fountains:** Adds impressive lighting effects to decorative fountains.
- **Spas:** Creates a relaxing and visually attractive environment.
- **Ponds:** Enhances the natural beauty of the water and its surroundings.
