

Recessed Housing PAR56 Niche for Pool LED Spotlight

Product codes:

Reference: POOL-8212

Product features:

Colour: White

IP: IP68

Measures (mm): Ø293x130mm

Medida de corte (mm.): Ø277x130mm

Material: ABS

Certification: CE - RoHS

Warranty: 3 años

Product attributes:

Product description:

Recessed Housing PAR56 Niche for Pool LED Spotlight The **recessed housing for pools** is specifically designed to house a PAR56 LED lamp, ensuring its protection and optimal performance in aquatic environments. Made of high-quality ABS, this housing guarantees perfect protection of the bulb's connection terminals, maintaining waterproofing with its IP68 protection rating.

Each housing includes its trim, plugs, and one meter of cable with polypropylene insulating sheath, ensuring a secure and durable connection of the lamp to the electrical network. This robust and reliable design is ideal for maintaining the integrity of the electrical system underwater.

For recessed installation in concrete or polyester pools, it is essential to fill the gap with specific pool material, thus ensuring the watertightness of the entire system once installed.

The **cutout dimensions** required for installation are **Ø277x130mm**, ensuring precise compatibility with industry standards.

**PAR56 LED bulb not included.*

Technical Specifications

- **Material:** High-quality ABS
- **Compatibility:** PAR56 LED lamps
- **Protection:** IP68 for total waterproofing
- **Cable:** 1 meter with polypropylene insulating sheath
- **Includes:** Trim, plugs
- **Cutout Dimensions:** Ø277x130mm
- **Applications:** Concrete and polyester pools

Applications

- Concrete pools
- Polyester pools
- Aquatic installations compatible with PAR56 LED lamps
