Indoor use

The **16x16 mm grey aluminium profile** is an elegant, functional solution for installing LED strips indoors. At **2 metres** long, it is designed for corner mounting with light emitted diagonally at 45º, improving both the aesthetics and the heat dissipation of the LED strip.

Made from high-quality aluminium, it is sturdy and durable. The included **opal diffuser** ensures uniform light distribution, reduces glare and protects the strip. It accepts any LED strip up to 10 mm wide and 4 mm thick. It can be cut to size with a hacksaw and comes with all mounting accessories (clips and end caps).

Why choose this product? **? Opal diffuser**

Even light, with no visible hotspots. **? Sturdy aluminium**

Improves heat dissipation and extends the strip's lifespan. **? Cut to size**
Easily cut with a hacksaw to fit your project.
