

24x7mm Recessed Grey Profile 24x7mm for LED Strip – 2m Kit

Product codes:

Reference: IL-4428-G

Product features:

Colour: Plata

Measures (mm): 24x7x2000mm

Material: Aluminum + PC

Certification: CE - RoHS

Warranty: 3 años

Product attributes:

Colour: Plata

Product description:

Recessed Aluminium Profile 24x7mm Silver – 2m Kit with Opal Diffuser Clean and Discreet Solution for Recessed LED Strip Installations

The **24x7mm recessed aluminium profile** is designed for flush-mounted installation of LED strips, offering a neat and professional finish. Its anodised silver finish and compact dimensions make it suitable for modern interiors, providing improved light aesthetics and effective heat dissipation for your LED strip.

This profile features a **17mm-wide cutout** and is **compatible with IP20 LED strips up to 12mm wide**. The **2-meter complete kit** includes all necessary accessories for quick and easy installation.

Kit Contents

- 1 x 2-meter silver anodised aluminium profile (24x7mm)
- 1 x 2-meter white opal diffuser (smooth and uniform finish)
- 2 x Mounting clips
- 2 x Grey end caps with hole

Installation Recommendations

- **Recessed mounting:** fits into surfaces with a 17mm cut for seamless integration into ceilings, furniture, or shelves.
- **Indoor use only:** the profile is not waterproof (IP20 rating), recommended for dry and protected indoor areas.
- **Improved heat management:** enhances the lifespan and performance of your LED strip.
- **Opal diffuser:** softens the light and reduces visible LED dots, creating a more uniform light output.

Recommended Uses and Applications

- **Architectural lighting:** ideal for integrated lighting in ceilings, niches, or walls.
- **Interior decoration:** enhances spaces with indirect lighting in furniture, displays, or shelving units.
- **Professional installations:** perfect for designers, electricians, and lighting projects.
- **Commercial spaces:** provides clean and elegant lighting in stores, offices, and showrooms.

Compatibility

This profile is **compatible with all LED strips up to 12mm wide**. Choose the perfect one from our wide range of LED strips by color temperature, power, or chip type.
