The **BERLIN wall light** is a decorative, functional lighting solution, ideal for outdoors thanks to its IP54 protection. Made of aluminium and lacquered in **rust-imitation corten-steel brown**, it blends perfectly into modern and rustic environments.

Inside, it has a socket for an **E27 LED bulb** (not included), making it easy to change the lighting without replacing the whole lamp. Installation is done from the **front**, for quick, hassle-free fitting. Its opal PC cover emits light both upwards and downwards (**Up & Down**), bathing the wall in indirect ambient lighting, perfect for creating warm atmospheres on terraces, balconies, patios and gardens.

Why choose this product? **? Up & Down effect**

Indirect light up and down, warm atmosphere. **? Replaceable E27 socket**

Change the bulb (not included) without replacing the lamp. **? IP54, corten finish**
