

E14 to GU10 Socket Adapter

Product codes:

Reference: 3239

Product features:

Lampholder: E14
Colour: White
Measures (mm): Ø36x55mm
Material: Thermoplastic
Certification: CE - RoHS
Warranty: 3 años

Product attributes:

Product description:

E14 to GU10 Socket Adapter Easily Convert E14 Sockets to GU10

The **E14 to GU10 adapter** allows for quick and easy conversion of any E14 socket into a GU10 socket, offering great versatility in bulb installation. With this adapter, there's no need to replace the entire fixture; simply insert this accessory to use GU10 bulbs in fixtures designed for E14 sockets.

Technical Data

- **Dimensions:** Ø36x55mm
- **Material:** Flame-retardant thermoplastic and aluminum
- **Compatibility:** E14 sockets

Product Advantages

- Easy conversion of E14 sockets to GU10 without needing to change the fixture.
- Made of high-quality **flame-retardant material** for added safety.
- Durable and heat-resistant due to its **aluminum** and thermoplastic construction.
- Cost-effective and practical solution for adapting bulbs of different socket types.

Applications of the E14 to GU10 Adapter

This **E14 to GU10 adapter** is ideal for environments requiring flexibility in bulb usage, allowing the installation of GU10 bulbs in fixtures with E14 sockets. Perfect for use in homes, offices, and commercial spaces.
