Warranty: 5 años

Product attributes:

Product description:

Aluminum Reflector for 100W and 150W LED Slim PRO High Bay Essential accessory for efficient and focused lighting.

The **Aluminum Reflector for 100W and 150W LED Slim PRO High Bay** is an essential tool for optimizing lighting in industrial and professional environments. Designed to be easily installed on the front of the high bay, this reflector allows the light angle to be focused to 60°, improving the efficiency and reach of the emitted light.

Product Features

- Compatibility: 100W and 150W LED Slim PRO High Bays
- Material: High-quality Aluminum
- Light Angle: 60°
- Easy installation on the front of the high bay
- Exterior Color: Matte black
- Interior Color: Reflective silver

Product Advantages

- Focuses the light angle to 60° for more efficient lighting.

- Made of aluminum, ensuring durability and strength.
- Elegant design with matte black exterior and reflective silver interior.
- Quick and easy installation on the front of LED Slim PRO high bays.
- Improves light focus, ideal for areas requiring precise and powerful lighting.

Applications

The **Aluminum Reflector for LED Slim PRO High Bay** is perfect for a wide range of industrial and professional applications, including:

- Warehouses and factories
- Commercial spaces and large areas
- Areas requiring concentrated and efficient lighting
